BOOK SYNOPSIS

A skillful balance of application and theory, *Budgeting: Politics and Power*, Second Edition, is a comprehensive yet highly accessible introduction to the politics of budgeting. Unlike other texts on the subject - which typically focus only on budgeting issues at the federal level - this book emphasizes budgeting at the state and local levels in order to translate budgetary politics in a way that will be more relevant to the vast majority of students. Drawing on a wide range of academic disciplines, the book also incorporates numerous pedagogical features, including case studies, in-class exercises, discussion and review questions; many charts, tables, photos, and cartoons; a glossary of budgeting terms; and an appendix of key federal budgeting points.
